# New & Trending 2024

# Premium Multi-Channel Amplifiers

- New Industrial Design
- Up to 16 Channels
- Up to 90 Watts / Ch.
- Multiple Input Options
- 3 Audio Filter Options
- Signal Sensing or 12 V Trigger Control
- Ideal for Larger Spaces and Outdoor Areas

## Amplifiers Russound

The all-new D-Series brings massive advancements from the previous generation in incredibly small packages. Their all-new digital design allows for a compact size that is uncompromising in audio performance and reliability, and that offers robust installation flexibility.

With power outputs ranging from a powerful 75 watts per channel up to a staggering 90 watts per channel depending on the model, these amplifiers are ready for even the largest systems.

Installers will love the easily configurable audio filters, allowing any zone of these stylish amplifiers to be used as a standard stereo amplifier, as a dedicated subwoofer amp, or custom-tailored to produce only higher frequency sound to minimize extraneous power demands and allow for more dynamic headroom when needed.

The multiple input options with dual bus inputs and dedicated zone inputs, all with an adjustable gain, provide the ultimate in convenient flexibility for the installation professional.

These low-profile, powerful amps are perfect for adding additional zones of audio, adding more power for larger rooms or spaces, and for powering large outdoor areas with multiple speakers.

- ### D890
- Eight Channel Premium Performance Amplifier
- 90 watts per channel @4 ohms  
45 watts per channel @8 ohms  
180 watts per channel, @8 ohms, bridged
  - 2.66 ohm stable, powers up to 3 pairs of 8-ohm speakers per zone
  - Power On Modes: Signal Sensing/12V trigger/Always On
  - Audio Filters: Full Range, Low Pass 20Hz-160Hz, High Pass 80Hz-20kHz
  - Low Profile Rackmountable 1U Design

- ### D1290
- Twelve Channel Premium Performance Amplifier
- 90 watts per channel @4 ohms  
45 watts per channel @8 ohms  
180 watts per channel, @8 ohms, bridged
  - 2.66 ohm stable, powers up to 3 pairs of 8-ohm speakers per zone
  - Power On Modes: Signal Sensing/12V trigger/Always On
  - Audio Filters: Full Range, Low Pass 20Hz-160Hz, High Pass 80Hz-20kHz
  - Low Profile Rackmountable 1U Design

- ### D1675
- Sixteen Channel Premium Performance Amplifier
- 75 watts per channel @4 ohms  
37 watts per channel @8 ohms  
150 watts per channel, @8 ohms, bridged
  - 2.66 ohm stable, powers up to 3 pairs of 8-ohm speakers per zone
  - Power On Modes: Signal Sensing/12V trigger/Always On
  - Audio Filters: Full Range, Low Pass 20Hz-160Hz, High Pass 80Hz-20kHz
  - Convenient Rackmountable 2U Design

### AVA2.1 & AVA3.1 - Low-Profile Mini-AVRs with HDMI

The AVA2.1 and AVA3.1 mini audio receivers are designed for custom installation specialists and were designed based on their feedback. In addition to being highly flexible receivers that can be placed in nearly any imaginable space, both models include a fully integrated, highly efficient Class-D amplifier with digital inputs, 100–240V 50/60Hz universal power supply for installation nearly anywhere on the planet, built-in Bluetooth 5.0, ARC HDMI, dedicated subwoofer output with gain control, and an IR remote control and external receiver. The most important feature is the HDMI input allowing for instant use with any TV through HDMI's CEC functionality, eliminating the need to teach IR commands for volume control.

- Fully integrated highly efficient Class-D amplifier with 50 watts per channel, optimized for high quality audio performance
- Input for Audio Return Channel from TV HDMI Port eliminates the need for a set-top box
- 2.1 or 3.1 speaker / subwoofer output match existing soundbars or speaker setups
- Analog and digital audio inputs provide flexibility in connecting additional audio sources
- Built-in Bluetooth 5.0 allows to listen to any content from a phone, tablet, or computer
- Learning remote conveniently controls AVA, TV, and connected audio spources
- Super compact size 1.6" x 5.7" x 7.9". Ideal for any small behind the TV box, on-TV, on-wall, on-shelf, computer desktop, credenza, or similar locations

- Table-Top Mounting**  
The AVA-Series amplifiers may be installed on a table-top or shelf.
- Wall Mounting**  
The AVA-Series amplifiers may be mounted on any wall or other surface using the included wall-mount bracket. Make sure to use suitable wall-anchors or secure the bracket to any wall stud.
- In-Wall Box Mounting**  
Many of today's TV accessories, including the AVA-Series amplifiers, are designed to be installed in in-wall mounting boxes hidden behind a television.

### Cinema Bar 3.0 – 3-Ch. Passive Sound Bar for TVs 65" & Up

Add a mix of style and audio excellence to your home theater or improve your TV setup in any room of the house. The Cinema Bar 3.0 is a passive soundbar designed for use with wall mounted TVs, boasting 100W RMS Power Handling Per Channel. These soundbars pair perfectly with the Russound AVA2.1 and AVA3.1 Mini-AVRs. Constructed of reinforced MDF with isolated audio chambers for each channel, the stylish satin black soundbar adds elegance and appeal beneath the television.

- Frequency Response: 70Hz-20kHz
- 3 x 4" Custom designed high excursion driver
- 3 x 1" Custom designed tweeter with proprietary waveguide and phase plug
- 3 x 4" Passive Radiator for enhanced bass
- 100-Watt RMS Power Handling per Channel
