

ION KEYPADS

product overview

ROE:HN
LUXURY FOR THE SMART HOME

ION

THE COLORS OF ROEHN

ION

The ION collection elevates the concept of minimalism and brings new forms of interaction.

All functions are performed by touches and gestures, leading to a pleasant user experience.

Audible and visual feedbacks create a dialog between the user and the system.

Ion stimulates creativity and redefines concepts.

- available in 4 and 2 buttons
- multiple gestures available:
- press, hold and double tap
- swipe up and down
- swipe left and right (4 button keypads only)
- swipe and hold
- all gestures can be programmed individually and are reported over Telnet for Savant and third-party integration
- gestures can control volume, shades, load/scene levels
